

CITY OF SUMTER

# Water Meter Replacement

Our Water Meter Replacement Project is well under way with nearly one-fourth of the meters replaced. Automating the reading process with these new meters will allow us to better serve you.

SOME OF THE BENEFITS YOU CAN EXPECT:

## More Timely Readings

We're eliminating the lag between reading and billing. This also allows for quicker leak detection.

## Quick Access to Meter Information

Your readings will be transmitted to our office daily via radio frequency, putting usage data at our fingertips!

Thank you for your patience during this transition. For any billing questions, please call us at 803.436.2541.
